UNIVERSAL BOXES

Our cabinet boxes are designed to accommodate a range of performance needs, combining dependable construction with details that elevates everyday functionality. Across the lineup, each box emphasizes its structure, smooth operation, and materials to support long-term use in both residential and commercial environment.

From reinforced plywood construction and precision drawer systems to soft-close hardware and laminated finishes, these cabinet boxes balance craftsmanship with modern convenience.

Available in a variety of interior and exterior finishes, they are engineered to withstand daily wear while maintaining a clean, polished appearance.

*All wood materials, composite and hardwood materials, hardwares, finish applications are subject to change due to availability or planned changes and updates to products.

UF

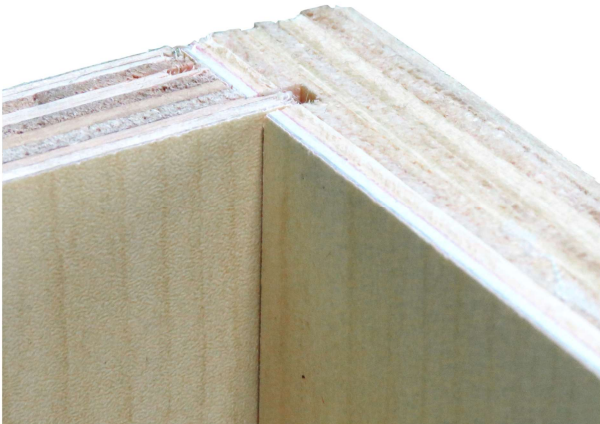

Built to meet higher performance demands, the UF-Box focuses on its assembly to deliver rigidity and support. With 3/4" plywood used throughout the cabinet box and shelving, this assembly offers enhanced capability and long-term consistency for both residential and commercial applications.

The drawer system are metal side panels while paired with durable plywood back and bottom components, creating a modern feel. Soft-close undermount tracks and hinges which reduces wear over time and contributing to a refined, high-end cabinet experience.

Finished with a natural maple laminate on both the interior and exterior, the UF-Box delivers a premium look while offering excellent scratch and water resistance. This protective surface keeps the cabinet looking new, making it a solid choice if looking for a premium option for the cabinet's construction.

Overall, the UF-Box is designed for environments that require added strength and reliability, offering a solid, performance-driven solution with a clean aesthetic.

FRAMELESS

UNIVERSAL PREMIUM BOX

Our cabinets combine soft-close tracks and hinges, aluminium drawers, and a flush frame full overlay design for durable, precise, and seamless operation.

UP

The UP-Box is defined by its solid, uniform construction, utilizing 3/4" plywood for both the cabinet body and shelving to create a strong framework. This plywood structure supports long-term use while maintaining consistent strength and stability for the cabinet.

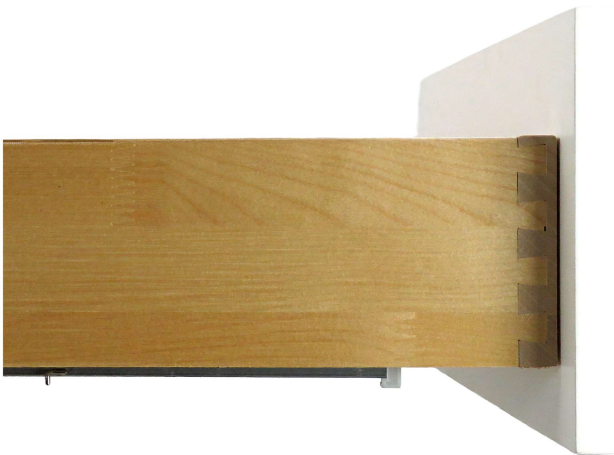

Its drawer system features solid wood dovetail construction, offering the same quality as our U-Box. Paired with soft-close undermount tracks and hinges, the drawers and doors move effortlessly and close gently, delivering a quiet experience.

Finished with a white laminate on both the interior and exterior, the UP-Box offers a contemporary look that is resistant to scratches and moisture. Its durable surface ensures the cabinet remains clean, fresh while protecting potential damages against everyday kitchen or workspaces.

FRAMELESS

UNIVERSAL STANDARD BOX

The U-box features advanced rubber strip and seamless door technology, soft-close tracks and hinges, interlocking dovetail drawers, and a flush frame full overlay design for smooth operation, durability, and a sleek, polished appearance.

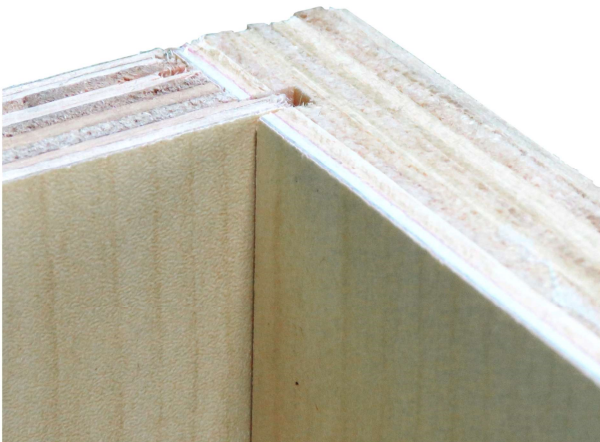

U

The U-Box cabinet is engineered for strength and reliability, featuring a 5/8" plywood cabinet box paired with durable 3/4" plywood shelving to provide enhanced support. This construction ensures long-lasting performance and everyday use.

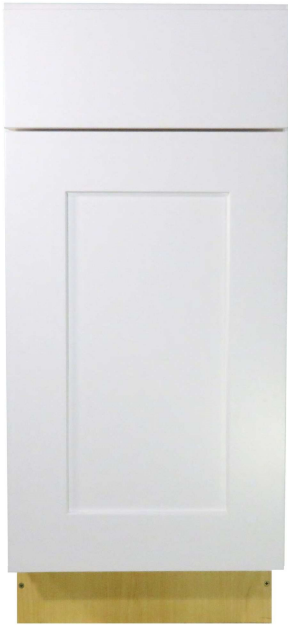

This box includes solid birch dovetail drawer boxes for added stability and security. Full overlay doors and drawer fronts create a seamless, refined look, while soft-close undermount tracks and hinges deliver controlled motion.

Designed with both craftsmanship and functionality in mind, Our U-Box balances high-quality materials with details that elevate overall performance. From its box construction to hardware, every component works together to deliver high quality. The U-Box complements a range of our solid wood kitchen cabinet doors.

FRAMED

UNIVERSAL STANDARD BOX

Our cabinets combine soft-close tracks and hinges, interlocking dovetail drawers, and a flush frame full overlay design for durable, precise, and seamless operation.

FRAMELESS COLLECTION

Combining the best of traditional American design with high-quality European Frameless construction, the frameless Collection features signature three-layer lacquer finishes on high-density fiber doors, adding brightness to your kitchen, along with the latest technology hardware.

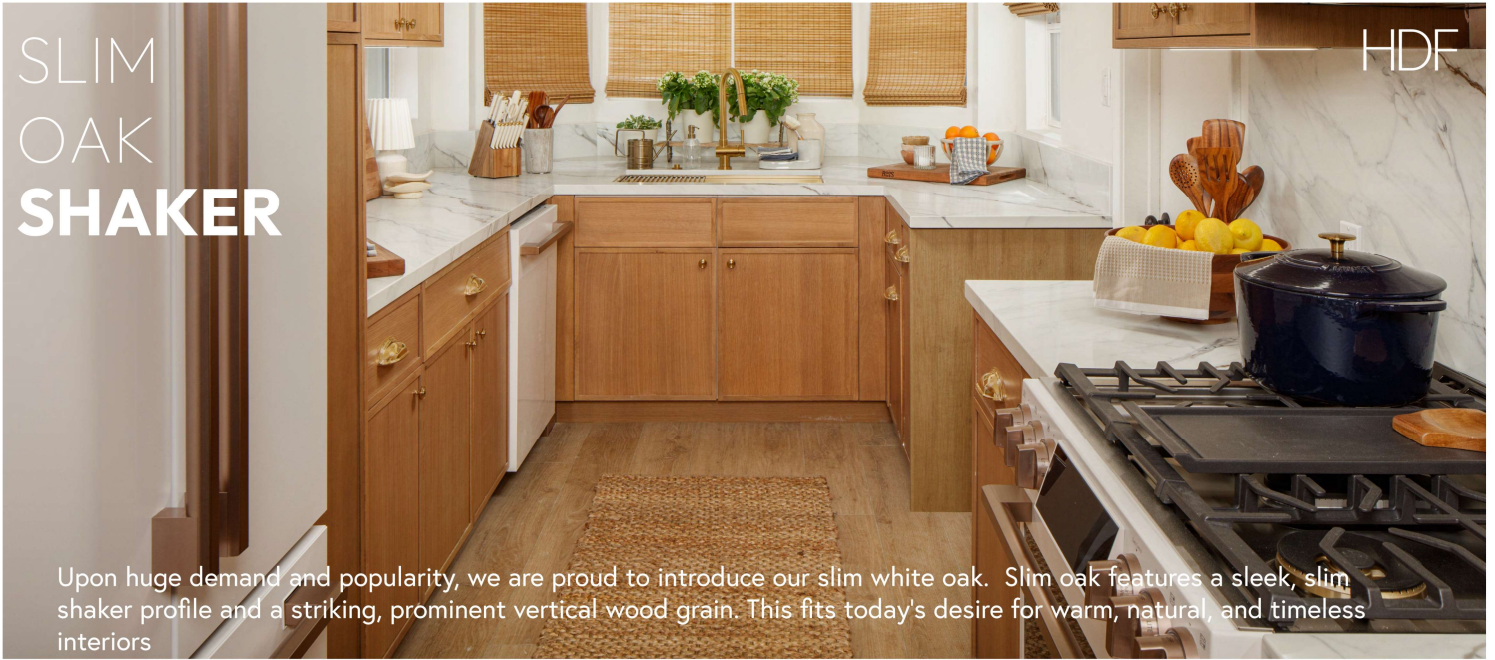

*All wood materials, composite and hardwood materials, hardwares, finish applications are subject to change due to availability or planned changes and updates to products.
